

Security Policy

Standard

It is the Sundance Resources policy, to conduct its business in a manner that protects the security of employees, assets and all others involved in its operations.

Expectation

In order to achieve this, Sundance Resources shall:

- Strive to identify and manage all potential security threats through the application of its security management strategies and systems, and through the active participation of every employee;
- Conduct regular risk based security threat assessments within the areas of its operations;
- Respond quickly, effectively and with care to events that have the potential to endanger it's personnel or assets;
- Work closely where required, with Government and/or law enforcement agencies to monitor and report on potential threats;
- Mandate to all employees, contractors, and others working on its behalf their responsibility and accountability for ensuring that the security of its personnel and assets is a key function of their role;
- Comply with all applicable laws and regulations; and
- Undertake appropriate reviews and evaluations of its operations to measure progress and to foster compliance with this policy.
